MATTHEW BANDOS

Pittsburgh, PA | (412)552-1732 | mat.bandos@gmail.com | LinkedIn | GitHub | Personal Website

Education

University of Maryland – College Park College Park, MD

Bachelor of Science in Computer Science (Machine Learning) | Bachelor of Science in Mathematics (Statistics) Expected May 2028

- Honors College: (103 credits completed; GPA: 3.97 / 4.0)
- Scholarships: UMD President's ($20,000; 2024 to 2028); National Merit (top 1% nationwide, 2024)

Skills

Programming Languages: Python, C#, C++, MATLAB, Java, C, R

Tools & Systems: Linux, Git, Docker, Bash, Jira, StrongSwan

Web & Data Visualization: JavaScript, React, HTML, CSS, NumPy, Pandas, Matplotlib

Automation: Selenium, Playwright, Beautiful Soup, RabbitMQ

Work Experience

Lockheed Martin King of Prussia, PA

Software Engineer Intern Starting May 2026

- Space Division (Security Clearance)

Sierra Nevada Corporation Plano, TX

Software Engineer Intern May 2025 – Aug 2025

- Engineered a radar application in C#, accelerating client R&D timelines and cutting projected costs by $38K+
- Built an IQ data visualization tool in Python, replacing third-party software and expediting analysis by over 244%.
- Implemented a client-server system with Strongswan, reducing demo setup time from ~3 days to 2 hours.
- Streamlined radar data extraction and analysis in MATLAB, increasing processing efficiency by ~28%.

University Career Center at the University of Maryland College Park, MD

Information Systems Assistant – Team Lead Sep 2024 – Present

- Led a 3-person IT support team, serving 31 staff who oversee career services for 40K+ students at College Park.
- Directed resolution of 450+ technical issues, inventory of 122 devices, and decommissioning of 70+ legacy systems.
- Coordinated semi-annual deployment of 16 check-in stations at career fairs handling 1,500 – 1,800 students daily.

Simcoach Games Pittsburgh, PA

Game Development Apprentice Jun 2024 – Jul 2024

- Led a 4-person intern team, managing task delegation and project milestones to develop functional prototypes.
- Developed backend for a scheduling skills game in C#/Unity, and presented final product to 10+ professional developers.

Research

Department of Aerospace Engineering (UMD) College Park, MD

Undergraduate Researcher Mar 2026 – Present

- Autonomous Ground Systems (Formal Methods) under Dr. Xu

Strategic Space Sensing Lab (UMD) College Park, MD

Undergraduate Researcher (Compensated) Feb 2026 – Present

- Deep Space Object Detection (X-ray Transforms) under Dr. Nguyen

UMD-IHC GeoHealth College Park, MD

Student Researcher (under Dr. Huang) Aug 2024 – Feb 2026

- Designed 23 automated web scrapers in Python, collecting over 5M+ unique geolocation data points.
- Created 19 ETL pipelines for data cleaning and integration, enabling large-scale analysis of social determinants of health.
- Optimized job scheduling with Bash + Docker, reducing manual server workload by ~169%.

Publications & Conferences

Huang SJ, …, **Bandos M**, et al. "GPS-Health: A Novel Analytic Infrastructure for Capturing, Visualizing, and Analyzing …" *medRxiv*, 2025

Huang SJ, Laboulaye R, **Bandos M**, et al. "Using Address-Level SDOH to Predict Diabetes Prevalence..." *ADA*, Jun. 2026 (abstract)

Extra Curriculars

FIRST Robotics (Team Captain), Tennis, Chess, Piano, Ukrainian Duolingo (1200+days), Ski, Black Belt, Community Service (100+hrs)
